

Infinity 622M Marine Speaker

Features & Benefits

RTS: Available Now!

CATEGORY: Marine

POSITIONING:

USP: High-fidelity car audio marine loudspeaker

KEY BENEFITS:

· From the most respected name in car audio comes the Infinity Marine Series Speakers. Designed to boost your performance everywhere you play, these weather-protected speakers are designed to cut through noisy engines, loud swells and anything else Mother Nature throws your way. With Plus One™ woofers and balanced-dome tweeters, you'll hear the clarity of your audio as if you were in your home. And because they feature a one-piece cast-polymer basket, a sealed magnet, and rubber surrounds, they're ready to hold up against the sun, sea spray, dirt, dust and scrub downs.

CRITICAL TO PURCHASE:

- Plus One™ woofer cones
- Balanced dome tweeters
- Designed for the elements
- Dark Chrome Grill
- Individually voices
- OEM-level reliability testing

Infinity 622M Marine Speaker

Selling Points

BASIC FEATURES:

- **Plus One™ Woofer Cones**
 - Harman's patented Plus One™ polypropylene cones provide more overall speaker-cone area than other cones in its class – the result is higher sensitivity, increased low-frequency output and greater musical character.
- **Balanced Dome Tweeters**
 - Weather resistant tweeters deliver a smooth high-frequency response and increased power handling for highs and mids, which equates to more lifelike sound from vocals, cymbals, brass instruments and pianos.
- **Designed for the elements**
 - Their one-piece polymer basket is designed to stand the test of time, even after long exposure to the sun, salt, dust and dirt. Rubber surrounds offer superior edge protection and are much more reliable than foam. And a grille-mounted tweeter allows the front of the woofer cone to be sealed protecting the motor structure from sea spray, dust and dirt.

BASIC FEATURES CONT:

- **Individually Voiced**
 - For most brands, off-shelf speakers and a cursory approval of frequency response curves are good enough. That's not the case with Infinity. We don't only listen to our speakers against the competition – we voice them against each other to ensure each line has the consistent Infinity sound signature car audio enthusiasts have come to know and love. This is just a part of an extensive development process undertaken by some of the best transducer engineers in the world to provide the finest listening experience at any price point.
- **Dark Chrome Grill**
 - Durable and easy to clean the dark chrome grill has large openings in the surface which makes keeping the speaker clean a snap. If it's on the deck of your boat, in your side by side or ATV water, mud and sand will rinse right off with ease.
- **OEM-level Reliability Testing**
 - Infinity tests every speaker design to rigid specifications, subjecting them to extreme conditions that would break lesser speakers. This is ideal for equipment that will be heavily driven in the elements. We freeze them, bake them, shake them, blast them with ultraviolet light and drive them at full power for days to make sure your audio investments lasts for years.

PROMOTIONAL TIME PERIODS:

- Spring Break, Dads and Grads
